Beautiful and practical steel screens, bespoke to you

Whether you're finishing a new build or looking to bring light and create new spaces in your existing home, we're here to help guide you every step of the way.

With an extensive range of features, styles and colours, we can work with you to design the perfect interior screens and doors that suit your home. You can also create your own designs with our unique online door designer.

As a family-run business, we pride ourselves on ensuring every product & solution is of premium quality, along with excellent customer service.

Your journey to a new space starts here...

With you at every step...

Unique free planning tool

We have developed our very own first-to-market design tool where you can create your steel screens in the comfort of your own home.

Explore designs, colours and options to suit your openings.

Expert advice & tailored quote

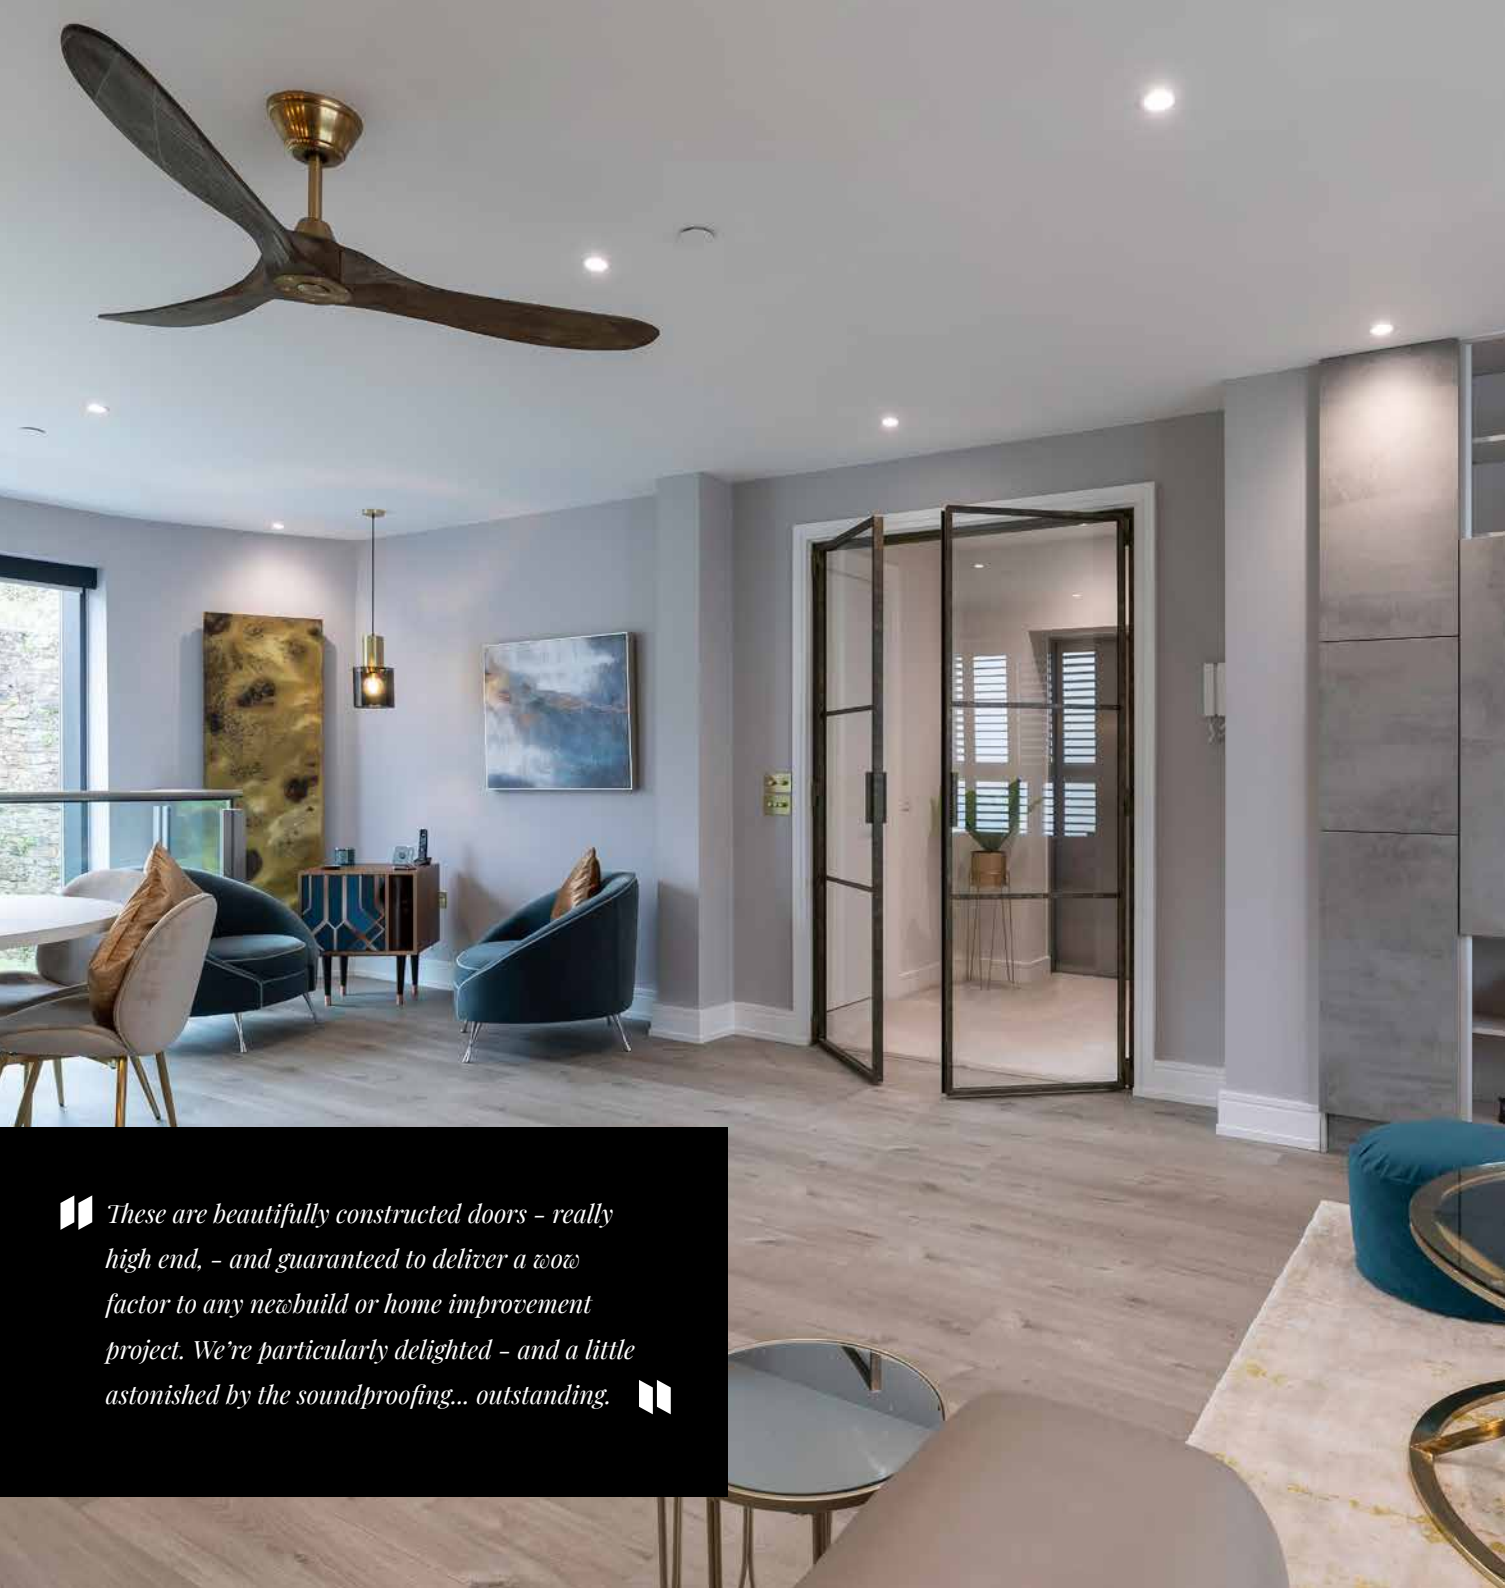
Our team of experts are on hand to support you.

We pride ourselves in being experts in our products and providing a professional service from start to finish.

Installation services

Choose from supply only or our expert installers are on hand to provide a seamless survey and installation service, available throughout the UK.

Our Product Range



These are beautifully constructed doors - really high end, - and guaranteed to deliver a wow factor to any newbuild or home improvement project. We're particularly delighted - and a little astonished by the soundproofing... outstanding.

An opening to suit any home

With RK Steel being completely bespoke, we have numerous products to suit all applications.

Hinged | Sliding | Bi-Fold
Pivot | Pocket | Fixed

Hinged or sliding doors

Openings and requirements come in many shapes and sizes and our product range offers tailored solutions for all scenarios.

Choose from a single hinged door through to full sliding screens with sidelights and fanlights, tailored to any size. Our product range goes beyond a standard hinged door including sound reduction, hidden pocket and fire resistant options.

Using the slimmest profiles, only achievable with steel, our slim interlock lines fade away with minimal light loss.

Product overview

Hinged

Giving you the ease of an open-plan space or a secluded separate room. Feature on their own or with fixed glass panels either side for more light and design.

Hinged doors are available as sound proof, or FD30 fire rated in our classic or ultra slim frames.

Single or double doors available.

Sliding

In rooms where you want more space-saving solutions, sliding doors offer flexible openings within minimal infringement on the room. They are light-weight with a soft close feature.

Opening options include face mounted (barn style), ceiling mounted or pocket.

Single, double or triple doors available.

Bi-Fold

For the largest of spaces, a fantastic solution is our glass bi-folding door.

With a market leading sightline of 44mm with fingertip operation, this opening will become a focal point in your home.

Custom combinations based on size.

Product overview

Pivot

Take your opening to the next level with an RK Steel pivot door.

Add an elegant, sleek, internal glass pivot door, using the same slim steel construction to truly make a design feature in any home.

Single or double doors available in sizes up to 2000 x 3000mm high.

Pocket

The ultimate space saving solution is our pocket door, creating an entrance that seamlessly disappears into your wall.

Great for studies, pantries & utility rooms and versatile enough to fit into any space you need.

Single or double doors available.

Fixed

Our fixed panels make a feature in any home. Create a wall of steel and glass to bring light to rooms that need it most.

Great for hallways, extensions and creating light features around the house.

Style Inspiration

Standard Collection

When selecting your steel screens and doors you'll also want to consider the style of the grille patterns. You can find a small selection on the next few pages and all are available to explore in our RK Steel Online Design Tool, plus, the option to create custom bar patterns to create a totally unique design. Please contact us for further details.

Technical Features

Fire-Rated Doors

Safety in your home is of upmost importance and we have developed specific solutions to ensure safety is prioritised alongside design.

Our FD30 fire doors combine elegant design with reassuring fire performance, offering a refined alternative to more traditional internal fire doors.

Our fire doors are perfect for use in the kitchen, loft conversions, living rooms or any space where you want to add extra safety.

Available in both our standard and ultra-slim Fireline Slim systems, each design is made bespoke to order and crafted to suit high-end interior spaces.. With a range of configurations, colours, metallic finishes and handle options available, our internal fire-rated doors are designed to deliver safety, flexibility and beautifully considered steel-framed style.

Sound-Proofed Doors

Shhhh...

Struggle with noise around the house? Cut it out.

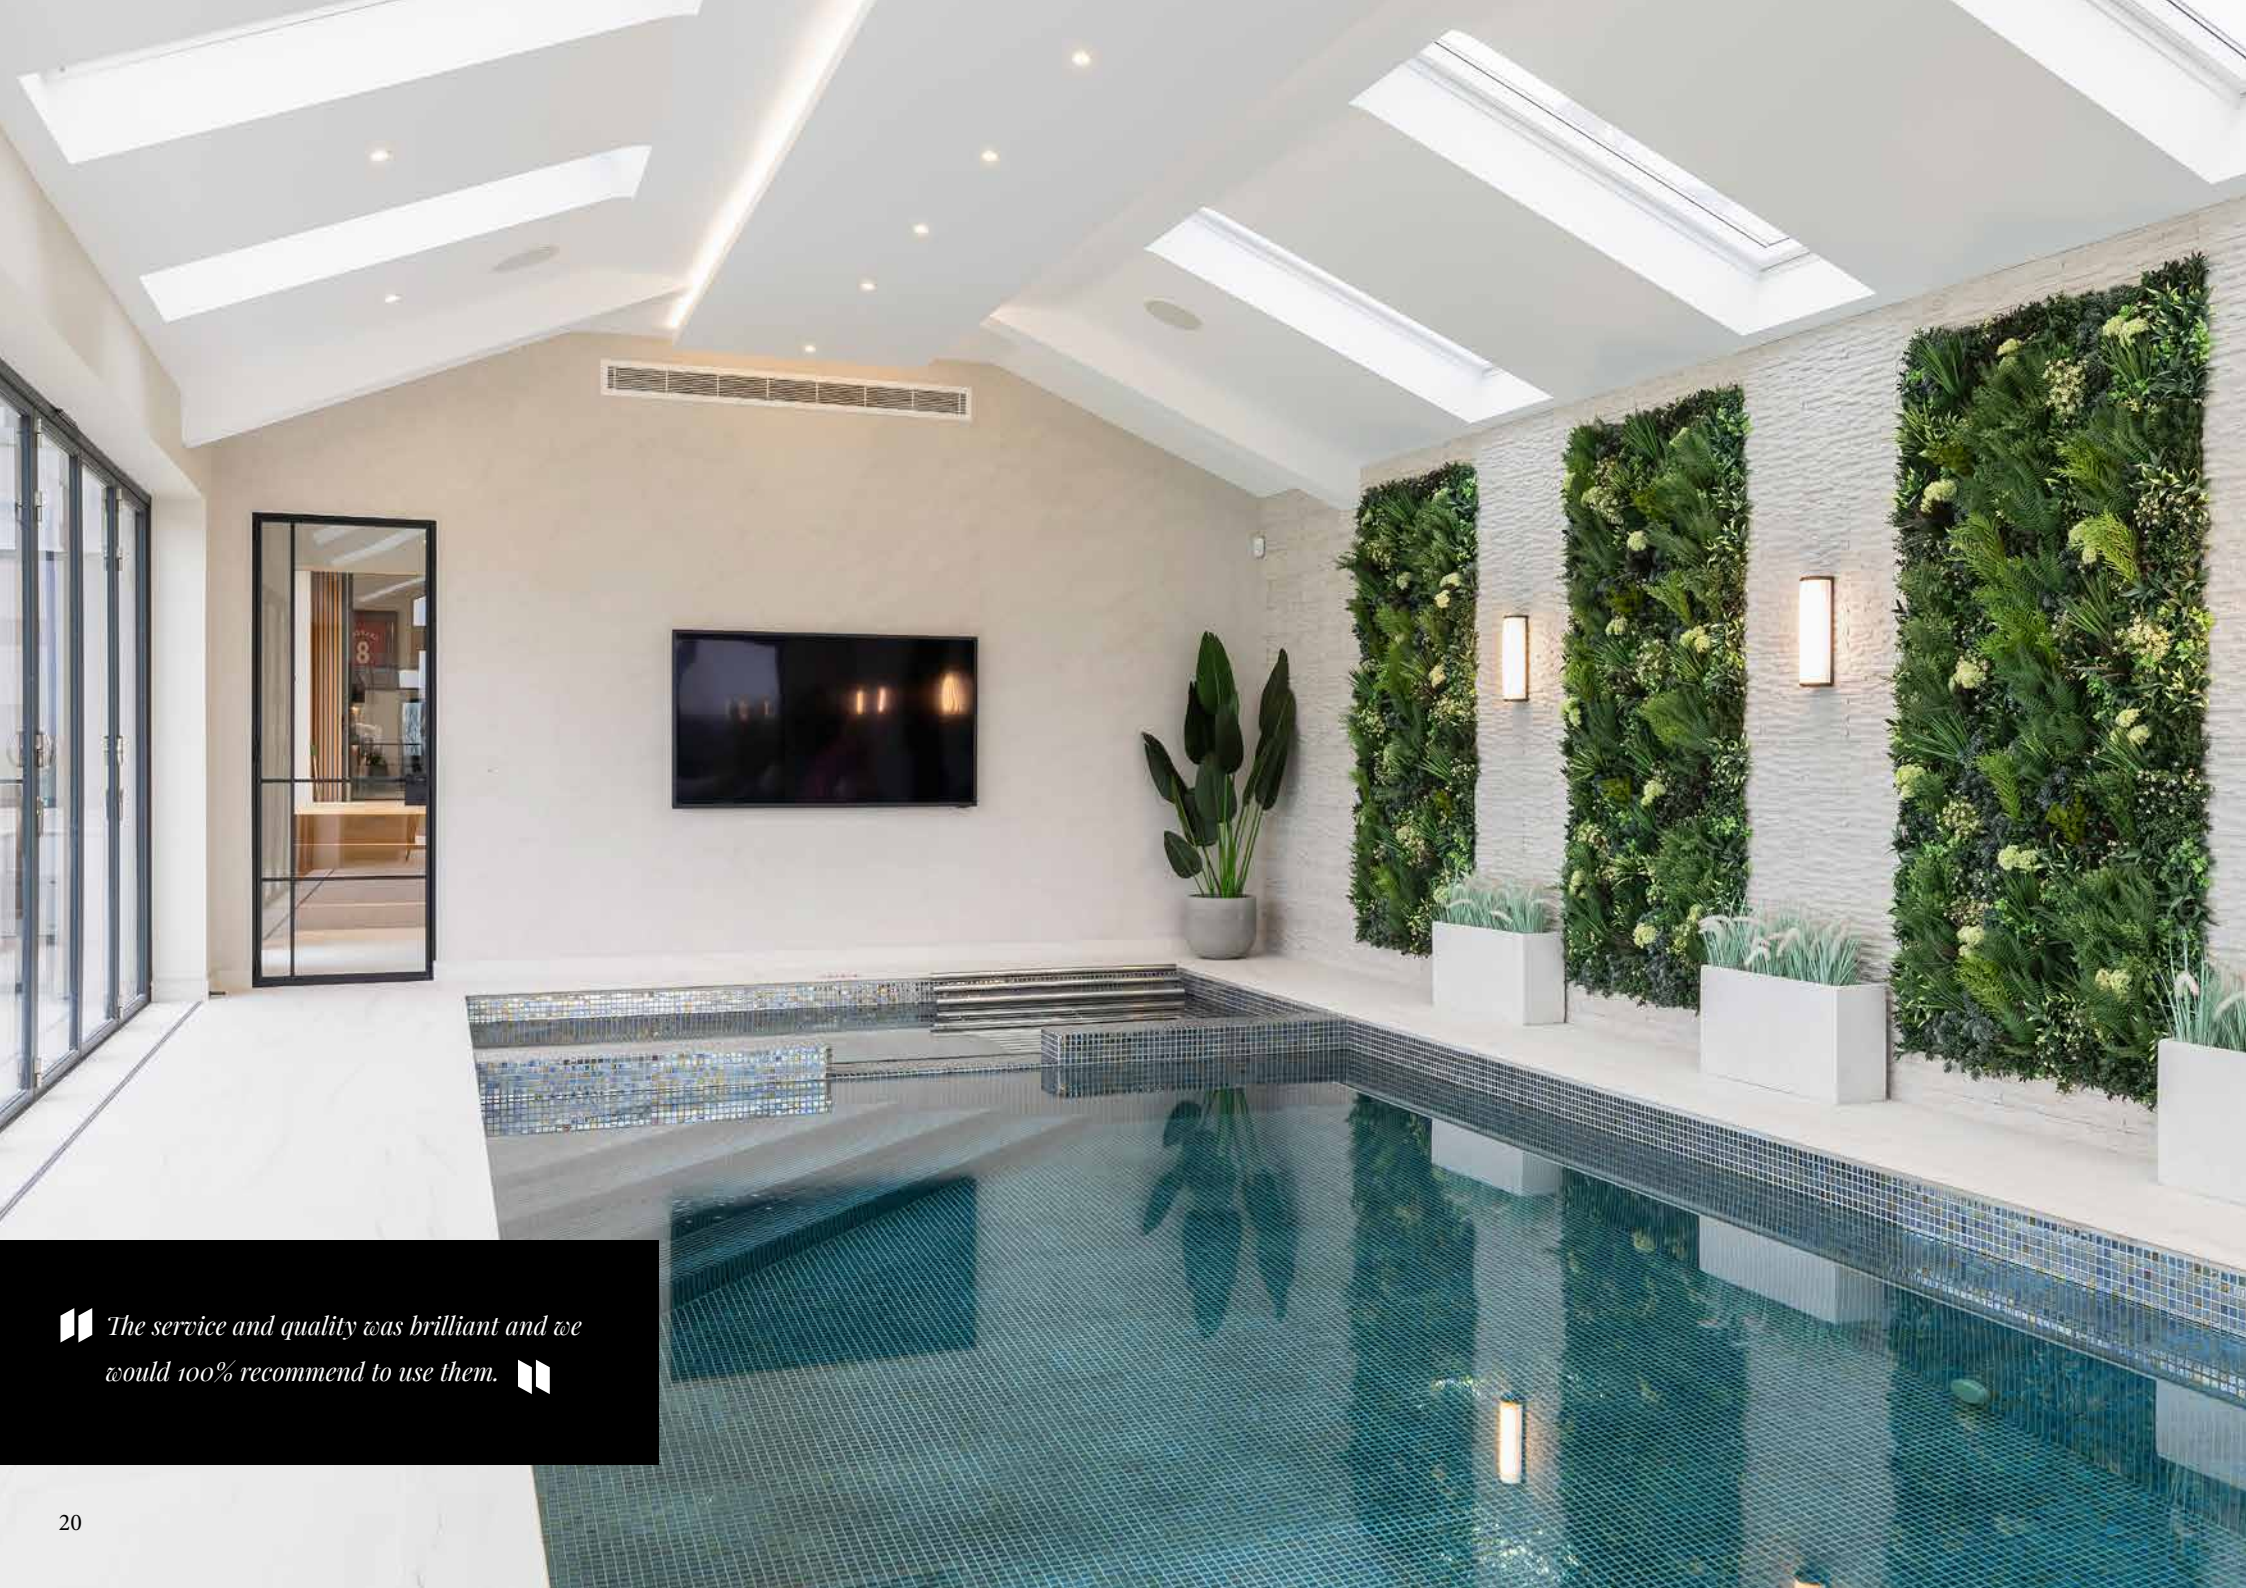
Our sound-proofed doors are available as an option for our hinged doors, providing tranquility to any space.

Featuring enhanced glazing and drop-down seals, they effectively minimise noise for a quieter environment

Bathrooms & Wetrooms

RK Steel is perfect for bathrooms, wet rooms and swimming pool applications.

Our steel products are available with upgraded galvanising, protecting them from corrosion in environments with high moisture.



The service and quality was brilliant and we would 100% recommend to use them.

Bespoke Collections

Introducing The Arch Collection

Do you have beautiful curves and arches in your home? As all our products are handmade and bespoke to you, we can design our hinged product in any arch shape to fit your home.

Maximise those curves and bring a touch of elegance using curved designs that help diffuse light more evenly and creating a warm and inviting atmosphere.

Introducing The Regal Collection

Do you want the look of curves but don't have a curved space?

Our Regal Collection has been uniquely crafted to add an arched door to a square frame, meaning you can have the timeless look of a curved door without needing to manipulate walls or openings.

These have been developed for our hinged products and can feature fixed panels for additional light flow. They are also available as FD30 fire-rated.

Finishing Touches

Make it Yours

When selecting your RK Steel we have a number of different metal and glass finishes to choose from.

Glass Options

Clear

Completely see-through glass. Our most popular choice.

Standard Fluted

A decorative glass, but still make out people and objects behind.

Blasted Fluted

Another version of fluted glass with obscure layering between the pattern for added privacy.

Brown Fluted

Brown tinted version of the standard fluted.

Grey Fluted

Grey tinted version of the standard fluted.

Black Tinted

Clear glass with black tint.

Brown Tinted

Clear glass with brown tint.

Grey Tinted

Clear glass with grey tint.

Mastercare Obscure

High-end glass with a modern square pattern on a matte background.

Satinato

Fully obscure flat glass.

Colours

We offer a comprehensive range of colours and here is a small selection of our standard and metallic colour options on our online configurator.

Design Your Own

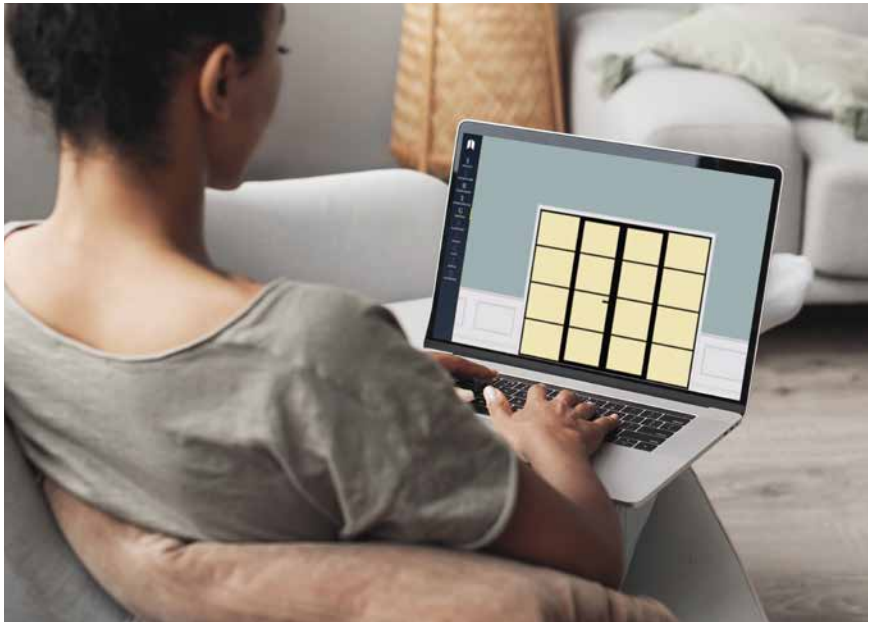
Design your bespoke screens online

Head onto our website to start building your steel screens and doors using our exclusive design tool.

Here you will be able to create individual designs in an array of opening configurations and once complete, submit them for a formal quotation.

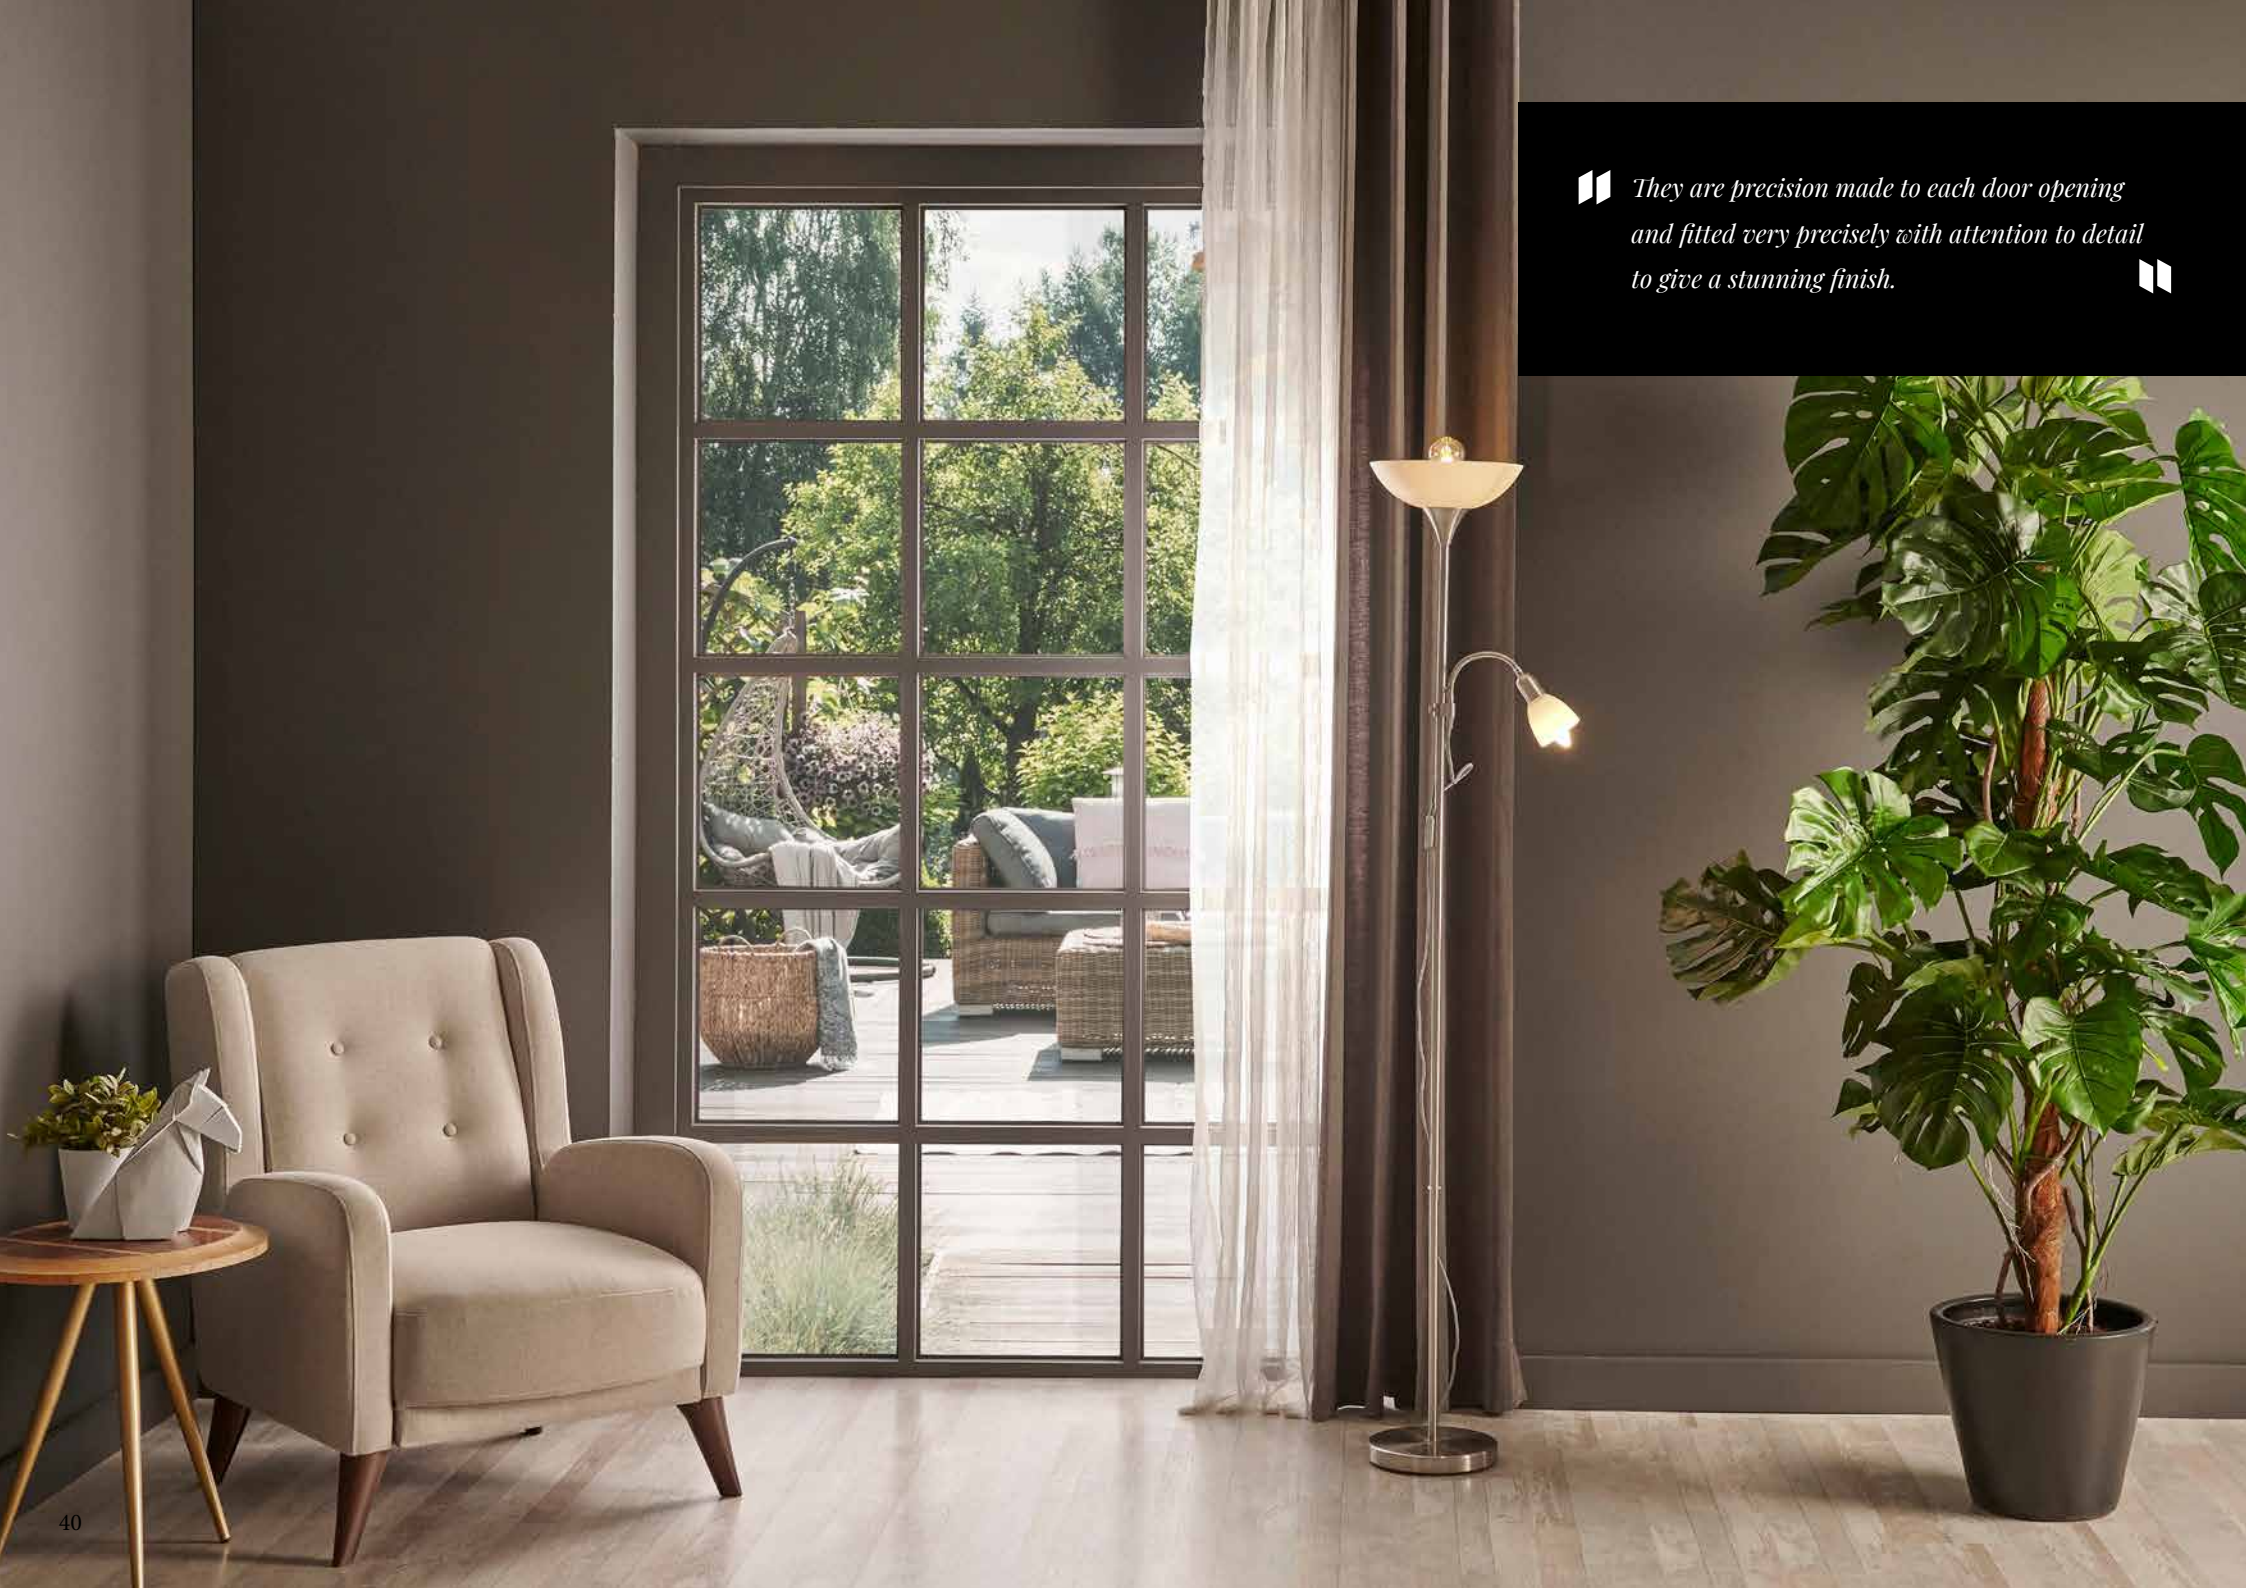
Looking for something truly unique?

We believe in allowing everyone to be individual and we pride ourselves in being able to design and manufacture custom creations in all shapes and forms. Please contact our design team to discuss specific projects further.



From Concept...

....To Installation



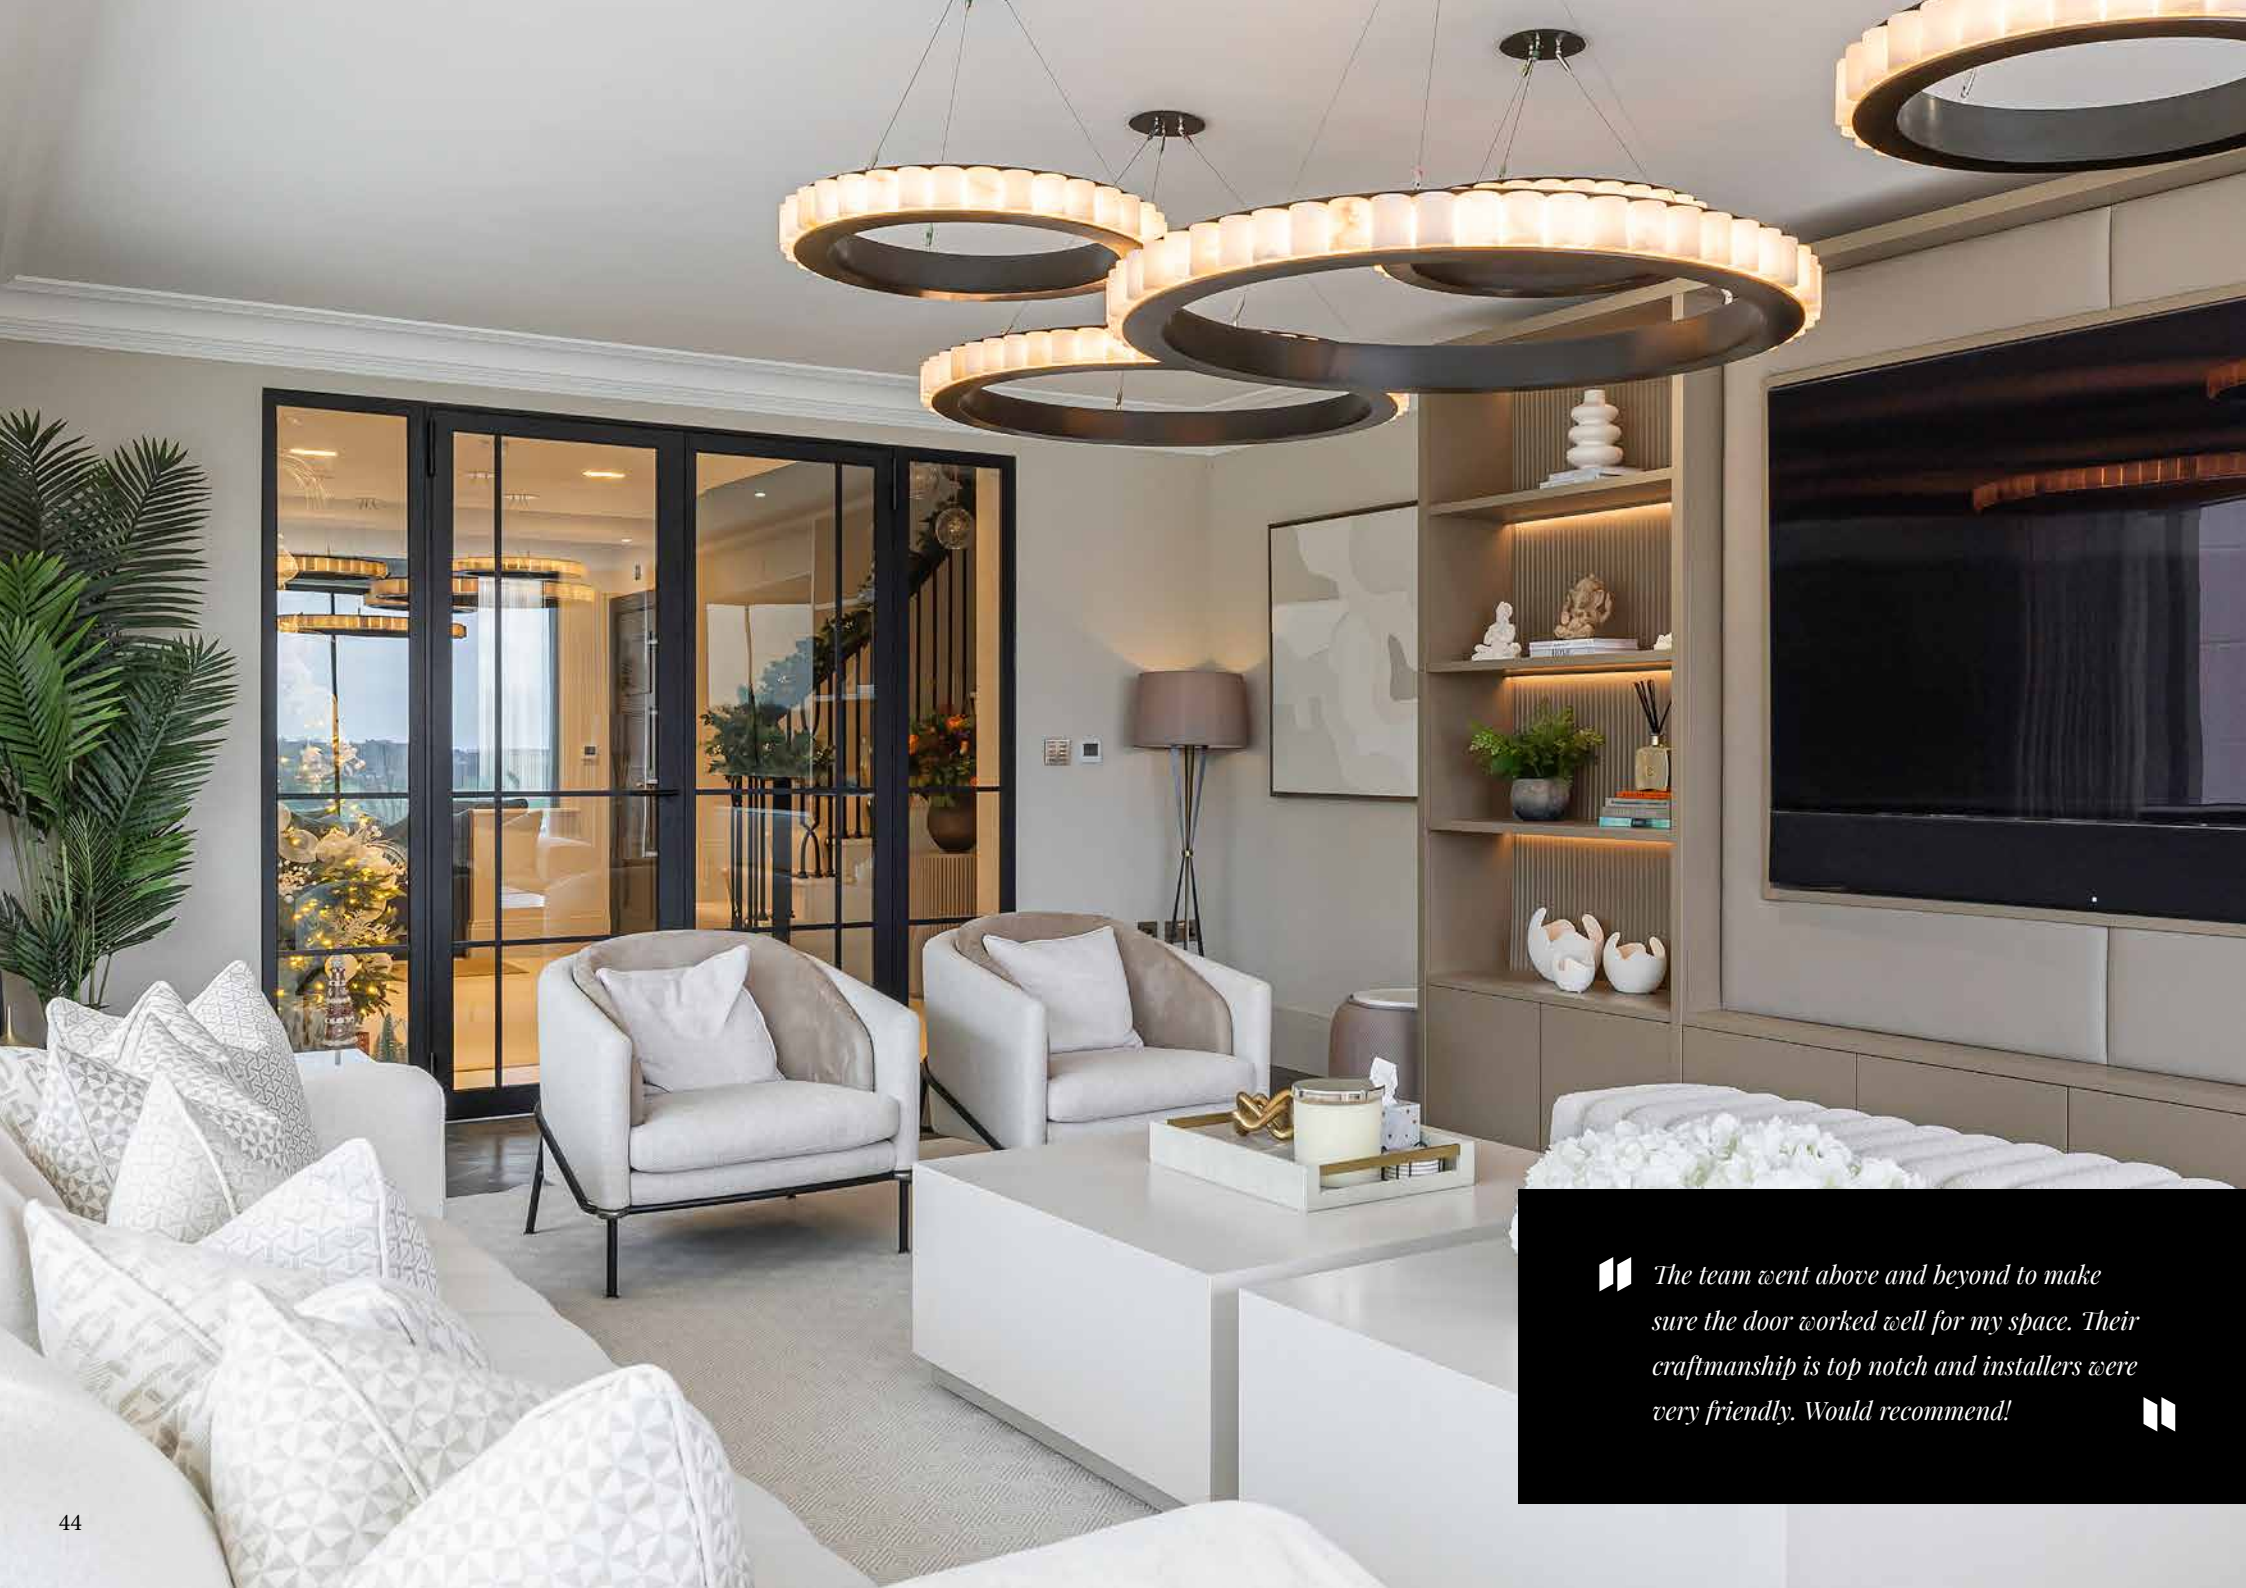
They are precision made to each door opening and fitted very precisely with attention to detail to give a stunning finish.

Outdoor Solutions

Make the most of indoor outdoor living

Steel has historically been a favoured material for windows and doors, offering slim sightlines with robust construction.

We are pleased to continue this tradition, incorporating modern day benefits, including thermally broken profiles, high security and triple glazing as standard.



The team went above and beyond to make sure the door worked well for my space. Their craftmanship is top notch and installers were very friendly. Would recommend!

About Us

From the manufacturers of RK Door Systems

RK Steel was created by the manufacturers of RK Door Systems, our sister company specialising in aluminium, premium, high-security front doors.

All of our entrance doors are custom-made to perfectly suit your space, offering a blend of style and high security. With PAS24 and Secured by Design certifications, our doors ensure an elegant entrance that also keeps your home safe and secure.
